

How to read your report

Alert - Data is missing or concerning

Highest priority for you to review

Example: We have detected that the vehicle has expired tax/NCT info.

Warning - Data available warrants closer inspection

Secondary warning, still important to review

Example: We have detected that the vehicle may have a mileage discrepancy.

Useful info about your vehicle

Helpful and informative data points

Example: General vehicle data, equipment, warranty and previous checks.

Completed Checks

Helpful and informative data points

Example: Where there are no issues flagged in this section it will appear as a quicklink with a green tick aligned to it.

Chassis Number (VIN)	Z#####00####5#9
Engine Number	7871670
Date of First Registration	12-10-2017
Date of Registration in Ireland	12-10-2017
Last Date of Sale	08-11-2022
No. of Previous Owners	1
No. of Owners	2
Chassis Details	
Country of Origin	GERMANY
Country of Assembly	TURKEY

- Country of Origin: Refers to the Origin as determined by the Department of Revenue. This designation is important for customs, duties, and Vehicle Registration Tax (VRT) purposes, as it helps determine the applicable tax rates and tariffs that may be applicable.

- Country of Assembly: Refers to the country where the vehicle was primarily assembled/manufactured. If different parts were assembled in various countries, the origin is typically the country where the final assembly occurred. This designation helps determine import regulations and tariffs.

Mileage [cartell.ie](#)

172KE1904 | IEP-34965F | 14-09-2026

NMR CHECK

Discrepancy	No
KM Entered	260,500
Miles Equivalent	161,901
Date Entered	14-09-2026

The National Mileage Register does not contain any records which would indicate a mileage discrepancy. Not every vehicle is listed on the NMR and you should always obtain the full service history. You may also consult the manufacturer to verify mileage readings.
